

Terms & Conditions

Contributions, similar to investments, involve risk and potential money you may lose.

Each contribution is counted towards exclusive positioning in a funding and revenue circulation model: \$150, \$500, and \$1,000 dollars gives you an entry point after you register, subscribe, and pay the contribution amount.

Your paid entry will be solidified and secured at the moment the contributor (you) has completed payment to BRIODS Corporation Of America along with completing the registration steps.

Although most returns can be seen directly following the 12 month maturity phase, Yield to Maturity Dates and Future Values can be affected by changes in logistical climates.

All Contributor Information is Kept Confidential; returns will be paid privately on a “first come first serve” rotation.

***Projected contribution amount returns*:**

\$150 - \$300
\$500 - \$1,500
\$1,000 - \$2,500
